EXPERIENCE

Full-Stack Developer

February 2025 – Present

MindGroup Consulting e Marketing

Sorocaba, SP

- **Full-stack architecture:** 3 production systems using modular monolith (NestJS, DDD), Next.js, CI/CD, and Docker.
- **Back-end architecture:** REST APIs with NestJS, JWT authentication, and granular role-based permissions customizable per module.
- **Process automation:** 40+ monthly hours eliminated in a legal system via bulk import, bank processing, and automated invoice generation.
- **Database optimization:** 95% query reduction (5s to 240ms) with MySQL views, indexing, and pagination.
- **Front-end development:** Next.js applications with code splitting, Server Components, memoization, lazy loading, and TanStack Query — average page load of 250ms.
- **Mobile and payments:** development and maintenance of 2 React Native/Expo apps with Stripe and eRede/Pix gateway integration.

Freelance Full-Stack Developer

June 2024 – Present

Freelance

Sorocaba, SP

- **Applied AI:** real estate agent inside GoHighLevel using Mastra AI and MCP, automating lead qualification, WhatsApp messaging, and property recommendations — replaced multiple SaaS subscriptions.
- **Front-end and SEO:** responsive landing pages with production deployment for clients.
- **Observability:** monitoring with Grafana and Prometheus for production metrics and alerting.

EDUCATION

SENAI Sorocaba
